

Environmental Management Efficient Processes for Clean Alternatives

Date: May, 10th – 11st 2011
Location: GEA Tuchenhagen Innovation Center, Buechen
Registration deadline: April, 8th 2011
Cost contribution: 390 Euro

For early registrations until March, 18th 2011 we offer a discount of 10% !

Sustainability of all energy is one of the greatest challenges of our time. The increasing global demand for energy and limited raw material provide companies with new questions.

Ecology, energy efficiency, waste water treatment, utility usage reduction and energy recovery are all critical factors of sustainable engineering concepts.

What are your main concerns about ecological and efficient engineering?
Do you like to discuss and share opinions with other engineers and learn from different practical experiences?

You are heartily invited to join the dialog.
